Terminal Disclaimer

1. The terminal disclaimer filed on May 15, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of patent number 7135952, has been reviewed and is accepted. The terminal disclaimer has been recorded.

Reason For Allowance

2. Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, *a second secondary conductor extending through the same via hole in said slab of ferromagnetic material as said second primary conductor.*

Claim 2 recites, inter alia, *a plurality of secondary conductors respectively extending through the same holes as via holes in which said primary conductors extend.*

Claims 8-10 recite, inter alia, *forming secondary conductors, insulated from said primary conductors, through each of said vias extending through said ferromagnetic material so that each via and the portion of the ferromagnetic material proximate thereto functions as a 1:1 turns ratio transformer.*

Claim 11 recites, inter alia; *a second conductor passing through said holes, the second conductor being electrically insulated from the first conductor.*

Claim 12 recites, inter alia; *a second conductor passing through said same holes, the second conductor being electrically insulated from the first conductor.*

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.
